### Activity 1: Planning a party

Jack plans a party for his friend Asha.

The party is at the community centre.

1 (a) The party is on Friday 14<sup>th</sup> June 2019.

Circle the date below which is the same as the party.

14/7/19

14.4.19

14.06.2019

19/6/2014

[1 mark]

1 (b) Jack needs some paper plates.

They come in packs.

Pack A	25 paper plates
Pack B	80 paper plates
Pack C	48 paper plates
Pack D	12 paper plates

Which pack has the **most** paper plates?

[1 mark]

1 (c) Jack buys one each of Pack A and Pack C.

How many paper plates does he have **in total**?

[2 marks]

1 (d) Jack looks at Pack B.

What will be the difference in the number of paper plates if he gets Pack B and **not** Packs A and C?

Show how you can work this out.

[1 mark]

Please turn over

1 (e) Jack also needs to buy balloons for the party.

He buys 25.

He puts an **equal** amount of balloons around the front door and the back door of the centre.

Using as many balloons as possible, how many balloons will he have around each door?

[1 mark]

Blank box for writing the answer to question 1 (e).

1 (f) How many balloons will he have left over?

[1 mark]

Blank box for writing the answer to question 1 (f).

1 (g)

Jack checks how warm it is in the centre when he arrives.

He puts the heating on and checks again after an hour.

He uses another thermometer.

Is it warmer or colder after an hour?

[1 mark]

[Total marks: 8]

This is the end of Section A.
