GCSE and BTEC Qualifications

Drama	A
English	B
Maths	B
Science	C
Art	C
RE	C

BTEC Level 2 Extended Certificate in Creative Media Production **Distinction**

WORK EXPERIENCE

APPRENTICE DESIGNER

Kanga Digital Design | 2016-ongoing

I am currently working as an apprentice Designer at Kanga Digital Design, based in Grantham in Lincolnshire. I have gained valuable experience of the media production process, working mainly on ideas for a website for Gather Lincolnshire. Kanga Digital were commissioned by Gather Lincolnshire to create a website to promote volunteering among young people and I am heavily involved in the photography, graphic design, web page design and construction. It has been an ideal opportunity to develop my understanding of how design combines with HTML, CSS and JavaScript to create an effective web product.

VOLUNTEER

Renew | 2015-ongoing

I originally became a volunteer at Renew to achieve my DofE Award. However, when they learnt about my media skills, they asked me to design a series of interactive resources to promote the Renew business, which is a registered charity. I used my skills in Photoshop and Dreamweaver to create a website for Renew.

SALES REPRESENTATIVE

Musicality | 2012-2015

I worked as a Sales Representative at music store Musicality every Saturday between 2012 and 2015. My responsibilities included serving customers, handling cash, stock rotation and supporting with the marketing of the store.

PERSONAL SKILLS

Communication Skills

I am an effective team player, capable of taking a leading role when necessary to lead a group to a positive outcome. I also find it easy to establish positive working relationships with colleagues and I have no problem moving between verbal, written and electronic communication methods.

Organisational Skills

One of my most valuable skills as a media practitioner is the ability to prioritise and organise my workload. I often have to work to interim and final deadlines on projects and I am confident in my ability to create, maintain and update schedules as necessary to ensure that I am as productive as possible. I also enjoy the creative process from design to testing and am able to share production paperwork and documentation within a team to improve efficiency.
