About this document

This mark scheme has been written by the assessment writer and refined, alongside the relevant questions, by a panel of subject experts through the external assessment writing process and at standardisation meetings.

The purpose of this mark scheme is to give you:

- examples and criteria of the types of response expected from a student
- information on how individual marks are to be awarded
- the allocated performance outcomes and total marks for each question

Marking guidelines

General guidelines

You must apply the following marking guidelines to all marking undertaken throughout the marking period. This is to ensure fairness to all students, who must receive the same treatment. You must mark the first student in exactly the same way as you mark the last.

The mark scheme must be referred to throughout the marking period and applied consistently. Do not change your approach to marking once you have been standardised.

Reward students positively giving credit for what they have shown, rather than what they might have omitted.

Utilise the whole mark range and always award full marks when the response merits them.

Be prepared to award 0 marks if the student's response has no creditworthy material.

Do not credit irrelevant material that does not answer the question, no matter how impressive the response might be.

The marks awarded for each response should be clearly and legibly recorded.

If you are in any doubt about the application of the mark scheme, you must consult with your team leader or the chief examiner.

Guidelines for using levels of response marking grids

Levels response marking grids have been designed to award a student's response holistically and should follow a best-fit approach. The grids are broken down into levels, with each level having an associated descriptor indicating the performance at that level. You should determine the level before determining the mark.

When determining a level, you should use a bottom-up approach. If the response meets all the descriptors in the lowest level, you should move to the next one, and so on, until the response matches the level descriptor. Remember to look at the overall quality of the response and reward students positively, rather than focussing on small omissions. If the response covers aspects at different levels, you should use a best-fit approach at this stage and use the available marks within the level to credit the response appropriately. When determining a mark, your decision should be based on the quality of the response in relation to the descriptor.

Standardisation materials, GSEMS and training, will help you with determining a mark. You will be able to use exemplar student responses to compare to live responses, to decide if it is the same, better or worse.

General Dental Council Standards and learning outcomes

Clinical

1. Individual patient care - Learning outcomes 1.1 to 1.11
 - 1.1 Foundations of practice - Learning outcomes 1.1.1 to 1.1.9 (9)
 - 1.2 Contribute to patient assessment - Learning outcomes 1.2.1 to 1.2.7 (7)
 - 1.5 Responding to the treatment plan - Learning outcomes 1.5.1 to 1.5.2 (2)
 - 1.7 Patient management - Learning outcomes 1.7.1 to 1.7.6 (6)
 - 1.8 Patient and public safety - Learning outcomes 1.8.1 to 1.8.6 (6)
 - 1.9 Treatment of acute oral conditions (1) - Learning outcome 1.9.1 (1)
 - 1.10 Health promotion and disease prevention (3) - Learning outcomes 1.10.1 to 1.10.3 (3)
 - 1.11 Contributing to treatment (4) - Learning outcomes 1.11.1 to 1.11.4 (4)
2. Population-based health and care- Learning outcomes 2.1 to 2.5 (5)

Communication

3. Patients, their representatives and the public - Learning outcomes 3.1 to 3.3 (3)
4. Team and the wider healthcare environment - Learning outcomes 4.1 to 4.3 (3)
5. Generic communication skills - Learning outcomes 5.1 to 5.3 (3)

Professionalism

6. Patients and the public - Learning outcomes 6.1 to 6.5 (5)
7. Ethical and legal - Learning outcomes 7.1 to 7.5 (5)
8. Teamwork - Learning outcomes 8.2 to 8.3 (3)
9. Development of self and others - Learning outcomes 9.1 to 9.6 (6)

Management and Leadership

10. Managing self - Learning outcomes 10.1 to 10.7 (7)
11. Working with others - Learning outcomes 11.1 to 11.5 (5)
12. Managing the clinical and working environment - Learning outcomes 12.1 to 12.5 (5)

Personal development plan (PDP)

The personal development plan (PDP) is to be completed at the start of year 2 and prior to the continuing professional development (CPD) log.

You have been provided with the General Dental Council (GDC) development outcomes below to support you in identifying your own areas for development. It is important to assess your areas of development or required learning to support your role as a dental nurse.

GDC development outcomes
A. Effective communication with patients, the dental team and others across dentistry, including when obtaining consent, dealing with complaints, and raising concerns when patients are at risk
B. Effective management of self and effective management of others or effective work with others in the dental team, in the interests of patients at all times, providing constructive leadership where appropriate
C. Maintenance and development of knowledge and skill within your fields of practice
D. Maintenance of skills, behaviours and attitudes which maintain patient confidence in you and the dental profession and put patients' interests first

Considering the GDC's development outcomes above, you are required to identify 3 areas of learning to support your development.

Please complete the table below. Remember to discuss these with your tutor and industry placement mentor.

Continuing professional development (CPD) log

Considering your PDP areas of learning, you are required to:

- complete a minimum of 3 CPD activities that you can complete throughout year 2 to support your PDP. Your CPD must be completed 1 month prior to your professional discussion assessment
- document your CPD using the template provided

Your CPD activities can be both formal or informal and can take place as part of your industry placement or whilst with the provider; however, these can also be additional activities carried out and completed outside of these settings.

Each CPD activity **must** be verified by either your placement mentor or your provider. They must sign to confirm the CPD activity has taken place, or they have seen evidence to confirm the activity has been completed.

You have been provided with the GDC's examples of CPD against each of the development outcomes below to support you in identifying your own CPD activities:

GDC development outcome	GDC example of CPD content
A. Effective communication with patients, the dental team and others across dentistry, including when obtaining consent, dealing with complaints, and raising concerns when patients are at risk	<ul style="list-style-type: none"> • communication skills • consent • complaints handling • raising concerns • safeguarding
B. Effective management of self and effective management of others or effective work with others in the dental team, in the interests of patients at all times, providing constructive leadership where appropriate	<ul style="list-style-type: none"> • effective practice management - not applicable • business management - not applicable • team working • leadership skills <p>Note: effective practice management and business management are direct examples from the GDC development outcomes and are here for reference only. As a student dental nurse, you are not required to use these as examples of CPD.</p>
C. Maintenance and development of knowledge and skill within your fields of practice	<ul style="list-style-type: none"> • clinical and technical areas of study • radiography • cross infection control • medical emergencies and cardiopulmonary resuscitation (CPR) • CPD on quality assurance for the Medicines and Healthcare products Regulatory Agency (MHRA) • CPD specific for your daily roles • upskilling opportunities

D. Maintenance of skills, behaviours and attitudes which maintain patient confidence in you and the dental profession and put patients' interests first

- ethical and legal issues and developments
- professional behaviours
- equality and diversity training

Reflective accounts: describe

Considering the General Dental Council learning outcomes and your role as a dental nurse, describe what happened (when; where; who was present; what did you do; why were you in the situation; what did you want to happen?).

How did you feel you impacted on the situation? (during; before and after; what do you think others felt during and after the situation; what do you think now?)

Reflective accounts: analyse and conclude

Considering the General Dental Council learning outcomes and your role as a dental nurse, analyse what happened with reference to your own knowledge, skills and behaviours (why did things go well/not so well; what sense can be made of it; what knowledge do I/others have to help me understand the situation?)

What conclusions can you draw from the situation? (what did I learn; how could it be more positive for everyone involved; what skills do I need to improve; what else could I have done?)
