Dear Sarah

Product title: NCFE Level 3 Certificate for Mathematics in Everyday Life

Petroc is a further and higher education college serving North and Mid Devon. We have a very large cohort of both level 2 and 3 learners.

I can confirm that this qualification will help prepare students for the mathematical demands of higher education and employment and will be useful for those requiring a Level 3 Maths qualification. Its particular focus on problem solving in meaningful contexts will be a positive asset for these students.

We support this qualification as designed and are happy for NCFE to use this letter on their website alongside the specification.

Yours sincerely

Jane Hanson
